

## Add an Image to Your Page/Article

You can easily add an image to your page. Click on the image icon at the bottom of the page:

Your image folder will appear. If your image is not uploaded yet, click on the **[Upload file]** link to upload it. Browse your local computer and find the image. Click on **[Start Upload]** to upload the image.

You will see a confirmation that the file has been successfully uploaded. Now it can be found in the upper part of the window along with the default Joomla images. Click on the image to select it. Give the image a Description and a Title. This will help with search engine optimization. You can also set the alignment of your image to the right or left of the page. Then click **[Insert]** to insert it in your article.
